

## PRESS RELEASE

### NEW 22 MODEL YEAR CARADO PRODUCTS

July 19, 2021 - Leutkirch im Allgäu

The 2022 model year is a very special one for Carado, because the motorhome manufacturer is celebrating its 15th anniversary. On this occasion, Carado is presenting an individual birthday edition - Edition15 with many special features. In the case of the integrated models, a complete renovation of the front and the dashboard ensures a new and particularly harmonious overall picture. A lot has happened with the camper vans, too, because in the 2022 model year, the leisure vehicles can be purchased with a pop-up roof for the first time. This makes for an even more comfortable travel experience.

15 years of Carado. 15 years of unique travel moments. 15 floor plans. This is the new Edition15, the special edition with which Carado is celebrating its birthday. In the coming model year, the motorhome manufacturer will be bringing a large number of floor plans onto the market, which, depending on the series, have up to 18 optional extras. This

particular expansion of the product range affects the integrated, semi-integrated, camper vans and vans. The anniversary edition impresses with its high standard scope, diverse equipment and a very good price / performance ratio.

At the change of the model year, the integrated models get a whole new face thanks to many innovations at the front. The radiator grille with chrome application and the Carado lettering, new LED headlights with their own light signature and a new exterior height of 2.90 meters create a unique appearance. A lot has happened inside the integrated models too. The dashboard has been given a complete facelift and is gaining functionality thanks to many clever gadgets. This is ensured, for example, by a large number of storage areas as well as new card and bottle holders for the driver and front passenger. Even more practical storage space is gained through a foldable passenger cupboard with integrated storage compartments. This makes traveling in a camper even easier and smarter. A new surface structure, based on the interior design of Fiat and the lack of visible screw points, complete the revised dashboard, creating a particularly harmonious overall picture.

There is another special feature at the change of model year with the camper vans. From the 2022 model year onwards, Edition15 will be available for the first time with the special equipment of a pop-up roof. With this extension, two additional beds are gained, which

provide even more comfort and a very special feeling of home while on the go. The pop-up roof is black and can be purchased for all layouts of the camper vans on the Fiat Ducato chassis. The ascent is done using a telescopic ladder, which is also approved for outside use, for example to clean the roof or to lash bicycles. Inside the pop-up roof there is a high-quality mattress with a wooden slatted frame and a gooseneck lamp with an integrated USB socket provides the right lighting. The tent fabric can be opened at the front as a “convertible” or “panorama” and there is a large roof vent that also provides light. With all these clever innovations, anniversary editions and special equipment, Carado will again ensure unforgettable travel experiences in the 2022 model year. With its individual and well thought-out leisure vehicles, the motorhome manufacturer transforms your home on wheels into a real, mobile feel-good place.
